**Regulatory Authority receives its first completed application form for the development of the Airport  
finger peninsula**

**Hamilton, Bermuda** – The Regulatory Authority (“the RA”) today announced that it has received its first completed Bulk Generation Licence Application for the development of a 6 Megawatt (MWac) solar plant at the LF Wade International Airport finger peninsula. The public are invited to review the application form and provide comment during the public consultation period on the RA’s website ([www.rab.bm](http://www.rab.bm)) on or before September 3, 2019. Comments can be delivered by email to [electricity@rab.bm](mailto:electricity@rab.bm), by hand or mail to the Authority’s office at Regulatory Authority, 1st Floor, Craig Appin House, 8 Wesley Street, Hamilton, HM11.
